

LegalEase – AI-Powered Legal Document Generator

LegalEase uses Generative AI to simplify the creation of legal documents by providing customizable, accurate, and editable templates for various use cases.

Users can generate employment contracts, lease agreements, NDAs, and other legal documents based on their inputs, such as involved parties, effective dates, and key terms.

Built with FastAPI and integrated with an AI core, LegalEase generates professional-quality legal documents while maintaining formatting standards. It also supports custom branding, including logos and fonts, editable previews, automatic term tables, and secure handling of sensitive user data.

Users can export documents in PDF, DOCX, and TXT formats. LegalEase helps entrepreneurs, professionals, and individuals create structured legal documents without requiring a legal background.

Technology: FastAPI, Generative AI, PDF/DOCX/TXT export, editable document preview.
